

# Geriatrics Journal Club

Co-Sponsored by: CAMC Health Education and Research Institute  
& West Virginia Geriatric Education Center

**TARGET AUDIENCE:** physicians, nurses, pharmacists, social workers, and other interested health care professionals may attend.

**GERIATRICS JOURNAL CLUB OBJECTIVES:**

- Participants will learn how to present a journal article, case studies and relevant topics related to geriatrics (new treatments, drugs, interdisciplinary models, etc.) to a group of their peers.
- Participants will develop presentation skills, and literature analysis related to geriatrics to help them in their area of expertise (medicine, pharmacy, social work, nursing, etc.).
- Participants will discuss and review the study results of the efficacy and safety of two commonly prescribed drugs, sertraline and mirtazapine, compared with a placebo for the treatment of depression in patients with dementia.
- Participants will discuss and review the projected effect of risk factor reduction on Alzheimer's disease prevalence.
- Participants will discuss and review the results of a systematic review to determine whether low health literacy is related to poorer use of health care, outcomes, costs, and disparities in health outcomes among persons of all ages.

**Wednesday, August 10th, 2011 @ 5:00 p.m.**  
**Room 3292, WVU Building or online via Wimba Classroom**  
\*Light Refreshments Served
