

Geriatrics Journal Club

Co-Sponsored by: CAMC Health Education and Research Institute &
West Virginia Geriatric Education Center

TARGET AUDIENCE: physicians, nurses, pharmacists, social workers, and other interested health care professionals may attend.

GERIATRICS JOURNAL CLUB OBJECTIVES:

- Participants will learn how to present a journal article, case studies and relevant topics related to geriatrics (new treatments, drugs, interdisciplinary models, etc.) to a group of their peers.
- Participants will develop presentation skills, and literature analysis related to geriatrics to help them in their area of expertise (medicine, pharmacy, social work, nursing, etc.).
- Participants will develop collaborative and interdisciplinary skills and understanding about other disciplines in the care and treatment of elderly patients.
- Participants will be able to discuss the study “Drugs With Anticholinergic Properties, Cognitive Decline, and Dementia in an Elderly General Population.”
- Participants will learn the research results on “Effects of β -hydroxybutyrate on cognition in memory-impaired adults,” “Denosumab for Prevention of Fractures in Postmenopausal Women with Osteoporosis,” and “Practicality of a computerized system for cognitive assessment.”

Wednesday, October 14th, 2009

@ 5:00 p.m.

Room 3009, WVU Building
