Subject: Practice Gap Worksheet - WVUMedicine Pain Management Case Conference

Contact Name *	Heather Cosgrove
Contact Email *	heather.cosgrove@wvumedicine.org
Program Title *	WVUMedicine Pain Management Case Conference
Program Date/Range: *	Ongoing
Type of Program *	a Regularly Scheduled Series (ex. Grand Rounds, Weekly, Monthly)
Knowledge needs improvement / change: (The participants don't know "what" to do...) *	Yes
This course will help participants improve or change knowledge related to:	Familiarizing the audience with methods of reducing morbidity. Recognizing new and innovative treatment options.
Competence needs improvement / change: (The participants don't know "how" to do it...) *	Yes
This course will help participants improve or change competencies in the following ways:	Expanding their knowledge of what modalities would be beneficial to patients in different populations. Consider treatment plans that implement a multidisciplinary approach.
Performance needs improvement / change: (The participants "just don't" do it, for some reason...) *	Yes
This course will help participants improve or change performance in the following ways:	Apply strategies and treatment options to better increase patient function.
Will the educational objectives reflect these desired changes? *	Yes
Is this activity designed to improve patient outcomes? *	Yes

If so, how? *

The group will discuss difficult cases and develop a comprehensive, integrative treatment plan to meet the needs of a patient with complex medical issues.

Check the needs documentation that you used in selecting these topics. Attach documentation as described. *

other (provide a detailed description and attach)

Other:

Press Ganey, and other survey results have not been the most satisfactory. Also, as the opioid epidemic grows, the need for non-pharmacologic treatment, as well as more structured pharmacological treatment will increase.

[Nonpharmacologic Management of Pain.pdf](#)

Attach a File

[Nonpharmacologic Therapies for Low Back Pain.pdf](#)

Why does this Gap between current and desired practice exist?

This gap exists because of the rapid changes in treatment options for acute and chronic pain management.

How will this activity help close the practice gap / fix the identified problem(s)?

This activity will help to bridge the gap by reviewing cases within a multidisciplinary group and making decisions based on improving the outcome of the patients.

This activity should improve:

Competence
Performance
Patient Outcomes
