Poster Instructions

We will have the boards open to all participants a day before the session to hang their posters.

Holly Legleiter will notify all poster session participants via email all announcements, updates and instructions prior to the events, so watch your inbox. If you do not receive any emails within the week of February 18th and have submitted a poster abstract, please contact Holly Legleiter at 304-293-7207 or hlegleiter@hsc.wvu.edu.

You will receive a poster board assignment number beforehand via email.

Posters should be sized to fit on a 4 by 6 posterboard.

Posters may be printed at the Evansdale Library Computer Lab:

https://oit.wvu.edu/labs/printing/bigprints

- The Evansdale Computer lab is located in the same building as the Evansdale Library; however, you must go around the outside of the building and down a flight of stairs to get from the library to the computer lab.
- The Computer Lab phone number is 304-293-2900

Students will be expected to describe the studies represented in their poster to the judges in a manner similar to that used for oral presentations (eg. Stating the hypothesis or purpose of studies, methods used and results obtained conclusions and potential implications to human health). Students will be asked to remain at their posters during the scheduled judging periods.

Judging for posters will be based on:

- The scientific approach used in examining the research topics;
- Clarity and quality of delivery
- Effectiveness of graphics and visual aids
- An understanding of the research subject
- Individual role in project
- Handling of questions
