

General Water Outages Affecting Single Office or Classroom Building

**That Do Not Contain Special Sanitation/Water Need Operations
Such As Food Services, Medical Services, or Child Care Operations**

OUTAGES LESS THAN ONE (1) DAY

All occupants, to include students taking classes in this facility, must be notified of a water outage by signage at each building entrance, toilet facility, and water fountain stating that facilities are out of order and the location of the closest toilet facilities and drinking water supplies. Occupants with special needs must be given alternative work and/or study options as conditions require.

A temporary drinking water supply must be provided for occupants with special needs on the floors they occupy. Temporary drinking water may either be supplied from commercially bottled water or a sanitary food grade beverage dispenser provided with disposable cups and a waste receptacle.
