

Each publication, press release, or other document about research supported by an NIH award is to include an acknowledgment of NIH award support. Here is an example: "Research reported in this publication was supported by the National Institute of General Medical Sciences of the National Institutes of Health under award number R01GM085232." We encourage mention of NIH early in the text of the release (grant number, etc., can be in the footer). Prior to issuing a press release concerning the outcome of this research, please notify us. NIH communications offices may be able to highlight your release on NIH websites. In addition, the PIO Toolbox tab on the PIO web page has many helpful resources: <http://www.nih.gov/nih-pio-network/pio-toolbox>. Of particular interest may be the document, [Grant announcements and results](#).

If you have additional questions, please do not hesitate to contact me.

I am looking forward to a great year working with you and your institutions!
