### Break-out session descriptions

In Stitches: Learn how to suture a wound using a synthetic skin pad and surgical instruments

Hearing is seeing: Get experience using a hand-held ultrasound machine while learning about when and how ultrasound scans are used

Life as a PC Doc: Take the opportunity to talk one-on-one with physicians about what it's like to live and work in a rural area

Country Roads: Take a tour of the HSC and see what the daily life of a med student is like

The bee's knees: Go through the dissection of a cadaveric knee with a doctor in Orthopaedics

Oh, Baby!: Learn how to deliver a baby through this hands-on experience with an Obstetrics simulator
