Poster Instructions for Friday, March 24th

Registration for the poster session will begin at 7:45am in front of Fukushima Auditorium. After registration, you will receive your board assignment number to hang your poster. There will be a continental breakfast available to all participants, so you will have time to eat and walk around to view the other posters before judging begins. Judging will begin promptly at 8:30am. The poster session will end around 11:45 am.

The poster boards will be located around the Learning Center Commons (the "Pylons" area) at the Health Sciences Center. There will be a map of all boards provided to all participants at registration.
You will receive your board assignment prior to the session via email.

Posters should be 36 inches x36 inches (3ft by 3ft), **no larger**. Please note this specific size is mandatory as there will be two posters to each board.

Posters may be printed at the WVU Library Printing Services at:
https://lib.wvu.edu/services/multimedia/poster/
For poster templates, please visit:
https://phdposters.com/templates.php

Fabric posters are welcome. If you are interested in printing your poster on fabric, please use the vendor PosterPresentations in Mountaineer Marketplace.

Students will be expected to describe the studies represented in their poster to the judges in a manner similar to that used for oral presentations (Hypothesis or purpose of studies, methods, results, conclusions, and potential implications to human health). Students will be asked to remain at their posters during the scheduled judging.

Judging for posters will be based on:

- The scientific approach used in examining the research topics;
- Clarity and quality of delivery
- Effectiveness of graphics and visual aids
- An understanding of the research subject
- Individual role in project
- Responding to questions

There will be first and second place winners for each category.

Thank you for your interest and participation.
