Agenda

8:00am-8:30: Registration

8:30am- 9:30am: Compassion Fatigue

Benjamin Hines, MD

Following this session, participants should be able to: Recognize the definition and symptoms of burnout and compassion fatigue in the treatment setting for providers. Identify ways to detect, intervene, and prevent symptoms of compassion fatigue.

9:30am-10:30am: Substance Use Disorders in Pregnancy

Laura Lander, MSW, LICSW

Following this session participants should be able to: Establish a knowledge base regarding the impact of specific substance use on the developing fetus. Discuss the special needs of pregnant women with substance use disorders. Identify treatment options for pregnant women with substance use disorders. Special considerations when working with this population will be discussed and treatment options will be explored. Medication-assisted treatment will be discussed in depth.

10:30am- 10:45am: Break

10:45am-11:45am: Impact of Parental Substance Abuse on Children's Development

Lauren Swager, MD

Following this session, participants should be able to: Discuss the proposed mechanisms of parental substance use disorders effect on children. Recognize physical and cognitive effects that encompass Fetal Alcohol Spectrum disorders. Discuss how the treatment of parental substance use disorders can benefit childhood pathology.

11:45am-1:00pm: LUNCH and LEARN

****LUNCH PROVIDED****

Panel of Featured Speakers

Following this session, participants should be able to: Identify clinical and practice challenges as well as intervention strategies for difficult cases. Please bring your own clinical cases to discuss with panel.

1:00pm-2:00pm: Fostering Social Emotional Developments in the Parenting Dyad

Amanda Newhouse, MSW, LICSW

Following this session, participants should be able to: Illustrate ways to effectively educate parents/caregivers and providers in promoting healthy social/emotional development in newborns and young children. Apply treatment interventions to assist in promoting healthy social emotional development. Recognize developmental stages and how the caregiver dyad impacts those stages. Discuss how relationships, communication, and stimulation are critical when promoting positive prosocial development.

2:00pm - 2:15pm: Break

2:15pm - 3:15 pm: Bullying, Social Media and Its Impact on Teens

Erica Arrington, MD and Michael Bellisario, RN

Following this session, participants should be able to: Discuss how to detect when teens are bullied in person and on social media. Discuss how to get help for teens who are greatly impacted by bullying and social media. Discuss other high-risk teen behaviors including sexting, cutting/self-injury.

3:15pm: Conclusion of Conference

Return Conference Evaluations and Certificates Available (SW, LPC, Psychology only). Nursing and CME provided by WVU HSC Office of Continuing Education via email.
