RURAL HEALTH+ DAY

Break-out session descriptions

In Stitches: Learn how to suture a wound using a synthetic skin pad and surgical instruments

Hearing is seeing: Get experience using a hand-held ultrasound machine while learning about when and how ultrasound scans are used

Just Breathe: Experience the important steps of how to maintain an open airway to ventilate the lungs

Into the Wild: Learn how to splint a broken bone or fracture using tools from the great outdoors

A Road to Medical School table will be set-up for the day where you can find out more about medical school requirements and the admissions process.

If you have any questions or would like additional information about WVU Rural Health Day, please contact Christie Zachary, Program Coordinator for the WVU Institute for Community and Rural Health at 304-581-1789 or by e-mail at icrh@hsc.wvu.edu.
