

INTERNSHIP ADMISSIONS, SUPPORT, AND INITIAL PLACEMENT DATA

**Internship Program Admissions
 Date Program Tables are updated: 09/16/2019**

Briefly describe in narrative form important information to assist potential applicants in assessing their likely fit with your program. This description must be consistent with the program’s policies on intern selection and practicum and academic preparation requirements:

The overarching goal of WVU Medicine: University Healthcare’s internship program is to increase the access of West Virginia residents to highly trained mental health professionals by ensuring that future generations of psychologists receive quality education and training experiences. Specifically, we seek to train entry-level clinicians in how to integrate the discipline and practice of professional psychology within both community and integrated care settings. We do this by employing an empirically informed, competency-based, practitioner-scholar model. In addition to adhering to the profession-wide competencies, this internship has six program-specific goals for each of its interns in ethics/professional behavior, evidence-based psychological assessment evidence-based treatment, intake/crisis intervention, integrated consultation, and group therapy. We assist interns in developing competency in each of these goals through direct service experiences including individual/family therapy, group therapy, psychodiagnostic consultation/crisis intervention, and psychological assessment. Training areas include but are not limited to: learning disability/ADHD assessments, child and family services, integrated primary care, and behavioral medicine.

Does the program require that applicants have received a minimum number of hours of the following at the time of application? If year, indicate how many:

Total Direct Contact Intervention Hours	<input checked="" type="checkbox"/> N	<input type="checkbox"/> Y	Amount: 350 Preferred
Total Direct Contact Assessment Hours	<input checked="" type="checkbox"/> N	<input type="checkbox"/> Y	Amount: 50 Preferred

Describe any other required minimum criteria used to screen applicants:

Interns are required to be advanced graduate students currently enrolled in a terminal Ph.D. or Psy.D. program. Intern applicants should have completed a minimum of three years of graduate training. Applicants are also expected to have completed basic required academic coursework, successfully passed their doctoral comprehensive or qualifying examinations by the application deadline, have earned their master’s degree in clinical or counseling

psychology by the application deadline, have their dissertation approved by the ranking deadline, and have the endorsement of their graduate program DCT. While the program will base its selection process on the entire application package noted below, applicants who have met the following qualifications will be considered preferred: 1. A minimum of 350 intervention hours; 2. A minimum of 50 assessment hours; 3. Experience or special interest working in rural and/or integrated-care settings; 4. Coursework in abnormal psychology, cognitive assessment, objective assessment, projective assessment, and test construction; 5. Successful dissertation defense by the start of internship.
