## Avoid Liability: Know Your Patients' Medications and Their Impact on Dental Treatment

*Harold L. Crossley, DDS, MS, PhD*

### **Alumni Reception, Dinner and Dance**

Morgantown Marriott at Waterfront Place

Morgantown, WV

APRIL 27, 2019

### **Alumni Picnic**

Krepps Park, Morgantown, WV

*Dr. Clarence C. and Maxine Davis Cottrill Endowed Lecture Presents:*  
**Avoid Liability: Know Your Patients' Medications and Their Impact on Dental Treatment**

Harold L. Crossley, DDS, MS, PhD is Professor Emeritus at the University of Maryland Dental School. A native of Rhode Island, Dr. Crossley received a BS degree in Pharmacy, and Master of Science and Doctorate degrees in Pharmacology from the University of Rhode Island. The University of Maryland Dental School in Baltimore awarded Dr. Crossley the DDS degree in 1980. The liaison between the classroom and his part-time dental practice produced a practical approach to understanding the pharmacology of drugs used in the dental office.

Dr. Crossley has co-authored a number of articles and four books within the field of pharmacology. Other areas of expertise include the pharmacology of street drugs and chemical dependency. He serves on the Maryland State Dental Association's Well-Being Committee, is an active member of Phi Kappa Phi, Omicron Kappa Upsilon Honorary Dental Society, the American College of Dentists, International College of Dentists, and is an honorary member of the Thomas B. Hinman Dental Society. He was the recipient of the 2008 Chicago Dental Society Gordon Christensen Lecturer Recognition award and the 2012 Award of Distinction presented by the Academy of Dentistry International for his efforts in Continuing Dental Education. He has been a consultant for the United States Drug Enforcement Administration and other law enforcement agencies since 1974, and has become nationally and internationally recognized as an expert on street drugs and chemical dependency as well as the clinical pharmacology of dental drugs.

### **COURSE DESCRIPTION**

Your patients are living longer thanks to their medications but many physician-prescribed medications have dental implications and side effects affecting your treatment plan. Some are more likely to cause violent behavior. Others can cause a "burning mouth syndrome" and others may cause sexual dysfunction. Is antibiotic prophylaxis required for patients with an orthopedic prosthesis? How can I minimize prescribing opioid medications for post-operative pain? What is the new FDA warning about codeine and tramadol in children?

This presentation includes the indications, contraindications, and side effects of the most common physician-prescribed medications. Many were not approved when you took your pharmacology course in dental school. These medications represent one third of all prescriptions taken by your dental patients and familiarity with these drugs will provide you with a better appreciation for the health profile of your dental patient.

### **TARGET AUDIENCE**

This course is recommended for the entire dental team.

### **REGISTRATION**

Please submit your online registration and credit card payment at [ce.wvu.edu](http://ce.wvu.edu), or complete the attached registration form and return by April 19, 2019, to the WVU Office of CE along with your check payment. Registrations received by April 19, 2019, will be confirmed via email.

### **CREDIT**

The WVU School of Dentistry is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

The WVU School of Dentistry designates this activity for 6.5 continuing education credits.

Participants are cautioned about the potential risk of using limited knowledge when incorporating new techniques and procedures into their practices.

Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at [ADA.org/CERP](http://ADA.org/CERP).

### **DISCLOSURE**

All those in a position to control content of this program have indicated that they have no relevant interests to disclose.

### **COURSE OBJECTIVES**

Following this lecture-based course, participants should be able to:

- Discuss prescription, OTC medications, and foods that could adversely interact with dental drugs.
- Describe why your patient is taking their medications.
- List oral side effects that may be caused by these medications.
- Determine when not to prescribe NSAIDs.
- Manage patients taking some of the newer anticoagulant medications.
- Describe how to combine analgesics to maximize their effects.
- List indications and contraindications for opiate analgesics.
- Describe current recommendations for SBE and orthopedic prosthesis prophylaxis.

### **SCHEDULE**

#### **Friday, April 26, 2019**

7:30 am	Registration, Breakfast, Exhibit Visitation
8:30 am	Session I
10:00 am	Break/Exhibits
10:15 am	Session I continued
12:00 pm	Lunch
1:00 pm	Session II
2:30 pm	Break/Exhibits
2:45 pm	Session II continued
4:30 pm	Adjourn
