

Dentofacial Orthopedics Dr. Peter H. Buschang, PhD

Dr. Peter H. Buschang Friday, September 13, 2019 Erickson Alumni Center

PROGRAM SCHEDULE

Friday, September 13, 2019

8:30 am	Registration and Continental Breakfast
9:00 am	Faster tooth movements, the orthodontist's holy grail
10:30 am	Break
10:45 am	Class II orthopedics - background necessary to know who, when and how to treat
Noon	Lunch and alumni business meeting
1:00 pm	Class II orthopedics - a novel treatment approach for growing hyperdivergent retrognathic patients
2:30 pm	Break
2:45 pm	Class III orthopedics - growth characteristics and etiology of Class III malocclusion
3:45 pm	Class III orthopedics - four treatment approaches, depending on the skeletal problems.

4:30 pm

Adjourn

ABOUT THE SPEAKER:

Dr. Buschang is a Regents Professor and Director of Orthodontic Research at Texas A&M University College of Dentistry.

He was a NIDCR postdoctoral fellow in the Department of Orthodontics University of Connecticut Health Science Center from 1980-1983, and then a FRSQ scholar in the Orthodontic section and Human Growth Research Center at the University of Montreal from 1983-1988.

His research interests focus on craniofacial growth, developmental adaptations to orthodontic and surgical treatments and oral-motor function. Dr. Buschang has given over 150 invited lectures and workshops, and has served as associate editor for several journals.

He is the only person to hold honorary memberships in both the American Assoc. of Orthodontics and the Edward H. Angle Society.

LOCATION:

The Erickson Alumni Center, 1 Alumni Drive, Morgantown, WV 26504 (304) 293-4731

ACCOMMODATIONS:

Hampton Inn 1053 Van Voorhis Road, Morgantown, WV 26505 OR (304) 599-1200 Residence Inn Marriott 1046 Willowdale Road Morgantown, WV 26506 (304) 599-0237

For more information on this course, contact Carrie Trejo at ctrejo@hsc.wvu.edu or (304) 293-3222. For any questions on how to register for the course, contact the Office of CE at (304) 293-3937.

COURSE CREDIT:

The WVU School of Dentistry is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. The WVU School of Dentistry designates this activity for 6 continuing education credits. Participants are cautioned about the potential risk of using limited knowledge when incorporating new techniques and procedures into their practices. Concerns or complaints about a CE provider may be directed to the provider or the Commission for Continuing Education Provider Recognition at ADA.org/CERP.

REGISTRATION MADE EASY:

Be sure to fill out all applicable information on the registration form. Please make additional copies for each individual registration.

Please submit your online registration and credit card or electronic check payment at http://bit.ly/www.orthe, or complete the attached registration form and return by August 31, 2019 to the WVU Office of CE along with your check payment. Registrations received by August 31, 2019, will be confirmed via email.

COURSE DESCRIPTION:

In this lecture, Dr. Buschang will discuss the changes that need to occur in bone for faster tooth movements; the development of Class II and Class III skeletal malocclusions related to treatment objectives and the development of new treatment approaches; and provide novel treatment approaches to orthopedically correct the skeletal problems for Class II hyperdivergent patients and Class III patients.

This program is designed to meet the needs of the practicing orthodontist and staff.

OBJECTIVES:

Following this course, participants should be able to:

- Demonstrate the changes that need to occur in bone for faster tooth movements to occur.
- Clarify the differences in tooth movements between the various techniques available and determine which do and do not work.
- Describe how and why Class II and Class III skeletal malocclusions develop, and how this knowledge is related to treatment objectives and the development of new treatment approaches.
- Provide novel treatment approaches to orthopedically correct the skeletal problems for Class II hyperdivergent patients and Class III patients.

DISCLOSURE: All those in a position to control content have indicated that they have no relevant interests to disclose.

FASTER TOOTH MOVEMENTS AND DENTOFACIAL ORTHOPEDICS

Sponsored by the West Virginia University School of Dentistry
