	Some College	15834	32.0
	Bachelors Degree or Higher	6818	13.8
	Total	49424	100.0

Reader's Guide to Understanding This Information:

71.7% of adult participants in the C8 Health Project reported having completed high school or more. The US Census Bureau reports that, in the 2000 Census, 75.2% of all West Virginians and 83.0% of all Ohioans had completed high school.
